

# *Lion of Judah IEB High School*

**Lion of Judah Christian School is a private Christian institution committed to providing our Grade 7–12 learners with the strongest possible academic and spiritual foundation. Our goal is to equip each learner with the knowledge and character needed to achieve the marks required for their chosen future paths.**

**To ensure a high standard of education, we combine in-person classroom learning with online lessons presented by subject experts. This blended approach gives learners the best of both worlds — expert teaching, peer interaction, structure, and individual support within a Christ-centered environment.**

**All learners from Grade 7 to 12 are required to have a laptop with Wi-Fi access and Microsoft Office installed.**

**Learners completing Grade 9 may choose between two pathways:**

**Academic Stream: Continuing toward matric through our standard academic program.**

**Vocational Stream: Joining our on-site ECD College, which operates from our premises and offers a qualification starting from Level 1 (equivalent to Grades 10–12) leading to a specialized N4 Matric.**

**Additionally, all Grade 10 learners begin a Diploma in Ministry, completing one subject per month to build a strong biblical foundation for their future.**

**At Lion of Judah, we believe the Lord has a perfect plan for every learner. Our mission is to keep them close to Him, allowing God to open doors that no man can shut — sending out disciples into their unique callings and destinies.**

## INFORMATION REGARDING SUBJECT SELECTION:

Please consider the subject selection for Grade 10 students carefully, as changes after the beginning of Grade 11 are not permitted in the new curriculum.

The FET (Grade 10 - 12) Syllabus requires seven subjects for this phase, four of which are compulsory and three electives.

Grade 10 students may consider a 4th elective, (at the cost of a single subject) which can be dropped in Grade 11 and 12.

Should a student take more than 7 subjects for Matric, there will be an additional IEB exam cost per additional subject.

The selection of Physical Science will be subject to achieving a minimum

mark of 50% in Mathematics at the end of Grade 9.

Mathematics is a requirement for the selection of Physical Science.

## **PRICING**

The pricing provided above is for 9 tutored subjects in Grade 7, 10 tutored subjects in Grades 8 & 9 and for 7 tutored subjects in Grades 10, 11 & 12.

Should a student wish to take an additional subject/s this will be at an additional fee (please contact LION OF JUDAH HIGH SCHOOL for pricing).

Pricing includes practical sessions at affiliated venues in South Africa (excludes travel, meals, and accommodation if required).

Pricing excludes:

- Textbooks
- Hardware (computer, laptop)

## **TEXTBOOKS**

Textbooks are not supplied and should be purchased by parent form textbook list.

A textbook list will be provided once a student's application has been successful.

Additional charges for exceptions such as online licences or DVD's for

certain subjects do occur and sufficient notice is given to LION OF JUDAH HIGH SCHOOL in such instances.

## **LAPTOP REQUIREMENT**

Please note that all learners are required to have a working laptop with earphones. The laptop must have Microsoft Office installed.

This is a requirement for online class accessibility and will also benefit learners by helping them become computer-literate and tech-savvy. We do have computers at school, in case of an emergency.

## **AFTER CARE**

R 850 P/M after school until 17:30 pm

Includes Lunch and Juice as well as assistance with homework

## **HOLIDAYS**

LOJ aftercare will be open during the April, July and September holidays.

Aftercare will be available at additional cost. During December holidays, we will be closed. We follow public school holidays.
